

**STATE QUESTION 723  
INITIATIVE PETITION 378  
Special Election — September 13, 2005**

This measure adds Article XVI-A to the Oklahoma Constitution. The measure creates additional funds for building and rebuilding bridges and highways. It also prevents the Legislature from ever decreasing state funding for transportation below current levels.

The provision establishes a Bridge and Highway Trust Fund. The provision levies new gasoline and diesel fuel taxes. The new gasoline tax is capped at five cents per gallon. The new diesel tax is capped at eight cents per gallon. Eighty percent of the new gasoline tax and a portion of existing gasoline and diesel fuel taxes go into the Trust Fund. All new diesel fuel taxes go into the Trust Fund.

Ten percent of the new gasoline tax goes to county highway funds. Another ten percent goes to cities and towns for roads and bridges.

Available Trust Fund money could only fund the Department of Transportation's direct cost of building and rebuilding highways and bridges. No money from the new taxes can be used to incur debt.

The measure creates a committee to oversee both the use of the Trust's funds and the funding of transportation by the Legislature.

**STATE QUESTION 725  
LEGISLATIVE REFERENDUM 340  
General Election — November 7, 2006**

This measure amends the State Constitution. It amends Section 23 of Article 10. The measure deals with the Constitutional Reserve Fund also known as the Rainy Day Fund. The measure allows money to be spent from the Rainy Day Fund. The purpose of the authorized spending is to retain employment for state residents by helping at-risk manufacturers. Payments from the Fund would be used to encourage such manufacturers to make investments in Oklahoma. All such payments from the Fund must be unanimously approved by three State officers. Those officers are the Governor and the head of the Senate and House of Representatives. Those officers could only approve payments recommended by an independent committee. Such spending is allowed in years when there is Eighty Million Dollars or more in the Fund and other conditions are met. Such spending is limited to Ten Million Dollars a year. The help given to a manufacturer is limited to ten percent of its in-State capital investments. The Legislature could make laws to carry out the amendment.
